TOTAL RAISED

No extra costs to you, vital funding for us

Gift Aid is a UK scheme that allows charities to claim an extra 25% on donations made by eligible UK taxpayers at no extra cost to the donor. When someone ticks the Gift Aid box, they're simply confirming that they pay enough UK tax to cover the amount we will reclaim. This small action makes every donation go further; for example, a £10 donation becomes £12.50 for the charity. By ticking the box, supporters help maximise the impact of their gift, providing vital additional funding that helps charities continue and expand their essential work.
